

Now serving equine and large animal exotics

With our acquisition of NexGen Animal Health, a trusted name in large animal compounding, Mixlab has expanded its offering to equine, exotic, wildlife and zoo animals.

We have worked with trusted professionals to create powerful formulations to support health, performance, and longevity in large animals. We cover everything your animal may need, **from compounded pastes, powders, and suspensions to commercial medications, supplements and vitamins.**

With the same high quality and customer satisfaction standards Mixlab is known for:

- **Compliant with USP <795>** and voluntary, third-party accreditations
- Industry-leading turnaround times and **free, two-day shipping** standard on all large animal medications
- Flexible payment and shipping location options
- Ability to prescribe to a collection of animals
